

StartUp Membership

Germany stands at the forefront of innovation and the German-Australian Chamber recognises that disruption is the future for all mainstream business. We aim to assist innovative, new companies to expand their footprint to benefit both StartUp and established Member companies.

"SPEE3D, with revolutionary 3D printing technology, needed access to top German industrial companies. The Chamber quickly arranged meetings that led to successful business dealings. Such introductions are invaluable to StartUp and early-stage companies."

Byron Kennedy, Managing Director, SPEE3D
